Dear Yakov
I hope you've enjoyed the real tigers,elephants and lions. We all came from Africa just 100k years ago. And unfortunately did not improve a lot since then.

I have on mind two of Mr. Motti Zisser proposals/ideas which we've briefly mentioned in the past. Short meeting will help us make immediate judgment whether to enter it or not, better than long exchanges of blurred documents.
(1) A commercial/hotel compound, partly built in Bucharest.
(2) Athens Old Airport Project
(3) Few days ago his son Mr. David Zisser approached me with a major Rome,Italy Proposal.
I'm attaching some PDF material re (3). Heaven or Hell are in the details but this Rome,Italy one seems to me at first glance to be potentially the most interesting . Please feel free to call with more questions re this.
The Material re (1) and (2) is in hard copy form. I think that if you can come for one or two days to Bucharest and then Athens we can see the two proposed projects and you'll have an opportunity to get first hand impression of Mr. Zisser.

On another plane: (4) Italian Autostrade (major one , northern Italy, makes some .5mm€-1mm € per day but in deep financial troubles for reasons I could not find, which probably has nothing to do with the Autostrade or alternatively DO relate to the Autostrade and might help the buyer to push the prices downward). As well as few other Italian assets under stress. Both could be discussed in more details with my contact person (a former senior Israeli Diplomat) in IL or Europe.

Try to respond soon. Especially in regard to (3) and (4).Think of just a short visit to either Israel or Europe. Besides,I think the overall situation could also be interesting to discuss.

I send the Rome, Italy PDF in a follow up email in few minutes.

I'm still looking into Hungary. Will update you when we meet.

Looking forward to your response.

Best regards to Viktor

Ehud Barak
